It is reported that there are 50 out-of-work men applying for every vacant job in Toronto.

By the way, we do not hear of any more sympathetic walk-out days.

A sympathetic "walk-out" now would mean a sympathetic "walk-in" by a waiting crowd.

Heavy storm strikes district of Quebec, snow drifts being from ten to twelve feet high.

Quebec is destined to keep in the limelight as a storm centre.

President of Alberta Labor Federation says the solution of bolshevism is employment.

That all depends on what kind of employment. If its work—then none for bolshevism!

August William Hohenzollern, fourth son of the former emperor of Germany, has become an automobile salesman.

Probably the former prince has an auto to make a quick getaway.

Members of 130 unions in Seattle are to vote on a general strike.

Should they decide to strike it will take the "eat" out of Seattle in many of the homes in that city.

"Goat breeding is now a growing industry," says a Calgary paper.

Getting ready in good time for the next Dominion and Provincial elections.

The Board of Pensions Commissioners at Vancouver report that 1000 war widows have been re-married.

The war widows in B.C. are taking no chances of being "left" in the general scramble for husbands with their maiden sisters.

Canada is to get some of the Hun submarines, the British Government having so many it is embarrassed.

A claim for a few might be put in for Sounding Creek harbour.

Food hogs to suffer heavily because of a heavy drop in produce prices.

There has been too much hogging of prices, as the consumer knows to his cost, and its time some of these hogs got "their bit" in the neck.

The Social Circle

Mr. and Mrs. J. W. Lawrence were the host and hostess last week of the friendly gathering. The meeting was held at the lovely home of Mr. and Mrs. R. W. Wright, kindly, lent for the occasion. The company to the number of about 32 were gathered together about seven o'clock, and did not disperse till 2 a.m. They included Mr. and Mrs. Neil McLean and three daughters, Mrs. Fred Maris and Mrs. Ed Proctor and daughter Dorothy, Mr. and Mrs. Foster, Mrs. Collins and two little sons, Mr. and Mrs. R. W. Wright son and daughter, Mr. and Mrs. James P. Watson, Mr. and Mrs. W. A. Todd and May, Messrs. Finlay McKenzie, Bert Currie, Glen Johnston, Freddy Maris, Harry Newell, Ame Genette and Charlie Johnston. Mrs. Currie was absent owing to the indisposition of her little daughter.

After all the company had gathered, tables were arranged for cards, which were kept up with enthusiasm till 11.45, when supper was served. After all had done justice to the good things provided, Mr. Neil McLean, the promoter of the circle, in a neat speech, called attention to the fact that now—midnight having passed—January 25th, the natal day of Scotland's national poet, Robert Burns. Producing a volume of that great poet's works, he called upon Mr. Jas Watson to give a reading therefrom. Mr. Watson then read that masterpiece, "The Cottar's Saturday Night" with fine feeling and expressiveness, bringing vividly before the eyes of the listeners that wonderful home group that, with its deep piety, "lifts the cottage thatch to the grandeur of a cathedral dome."

All felt that—"From scenes like these, old Scotia's grandeur springs, That makes her loved at home, revered abroad; Princes and lords are but the breath of kings—An honest man's the noblest work of God."

Other readings followed, and some of Burns' song were sung, "Flow gently, Sweet Afton," by Mrs. Maris and Mrs. Proctor, being very tastefully and tunelessly rendered.

The usual finish to a very happy evening was given by encircling the host and hostess in a circle and singing "Auld Lang Syne."

Hog cholera found in Calgary stock yards.

Announcement has been made by President Hanna of the C. N. Railway of the placing of orders for 2830 cars. Probably the president is making early provision for Chinook's bumper 1919 crop.

Fix Your Buildings So Your Feed Bills Will Be As Low As Possible This Winter

Remember that Cold, Draughty Buildings

makes cold Horses, Cattle and Hogs, and cold animals eat more trying to keep warm.

Buildings should be made wind tight, but should be carefully ventilated.

The cost of doing this can easily be saved in reduced feed bills and the better condition of stock in the spring.

Early work on such repairs is also advisable so that the saving may begin early too.

Get your material HERE—free plans if you want them for new work or extensive alterations.

FLETCHER LUMBER CO., Limited

The Independent Lumbermen

J. B. MACLEAN, Manager, Chinook

We are not satisfied unless you are.

Curling

And the following Skip competed in the Hagra bonspiel: Dawson, skip; Renfrie, third; Milligan, second; McKenzie, lead and brought back the cup with them.

There are not many towns the size of Chinook who can boast of winning two curling challenge cups in one season, and having the two cups in their possession at the same time. That is Chinook's proud distinction.

Chinook curlers returned home this morning from the Saskatoon bonspiel. They report having had a very enjoyable time, but they left the cup behind.

The ladies' curling club is the centre of attraction these days.

Have You Started?

Have you started to use War Savings and Thrift Stamps? If not you should do so at once. All should save something, it matters not what their earning power may be. To argue this point is hardly necessary.

If Canadians do not save from now on it will not be through lack of a system that makes saving easy. Nothing could be better than the War Savings Stamp plan. Four dollars buys a War Savings Stamp, for which the Government will pay \$5.00 in 1924. Twenty-five cents buys a Thrift Stamp, 16 of which may be exchanged for a War Savings Stamp. Could anything be easier? This form of saving is also profitable, paying 4½ per cent compounded half-yearly.

The outlook for United States immigration into Canada is better now than for the past four years, stated W. J. White, inspector of Canadian immigration agencies in the States.

Notice for Nomination for Municipal Elections

D. M. OF SOUNDING CREEK No. 273

MUNICIPAL ELECTIONS, 1919

Public Notice

Is hereby given that a meeting of the Electors of the Municipal District of Sounding Creek, No. 273, will be held at the K. of P. hall, Youngstown, at one o'clock in the afternoon, on Thursday, the twentieth day of Feb., 1919, for the discussion of the affairs of the District, and for the Nomination of Candidates for the office of Councilors, and that such nominations will be received from the hour of three o'clock until the hour of four o'clock in the afternoon.

Given under my hand this eighteenth day of January, A.D. 1919
G. S. COAD,
Returning Officer

M. D. of Sounding Creek, No. 273

NOTICE

Public Notice is hereby given that applications will be received up to the twentieth day of February next for No. 1 Seed Oats, purchased from the Dominion Seed Commission, on a cash basis at a price of \$1.15 per bush, Youngstown and Chinook, plus handling charges. This price subject to advance.

 The prophylactic against twenty drops of SPOHN'S daily will act as an effective preventive—will insure the horse's health and vitality in winter. When there is so much disease, when your horse is so exposed, keep your horse on his feet by starting the use of SPOHN'S and your drugless handles it.
 SPOHN MEDICAL COMPANY, GOSHEN, INDIANA, U.S.A.

EDITORIAL

Safeguarding the Future

For a period of more than four years the people of all the great nations, and of many of the smaller nations as well, have been engaged in works of destruction on a scale hitherto unknown in the world's history. Even what might, in a sense, be termed constructive work had for its object the providing of means and machinery whereby the actual work of destruction might be augmented. Almost the only exception to this general rule has been in the production of food that the human race might not become wholly extinct.

For more than fifty years following the American Civil War and the Franco-Prussian war, the peoples of the world were engaged in the multifarious activities of the greatest period of invention and industrial and commercial enterprise ever known. The world was revolutionized in that time, but along with the marvelous transformation which took place in the realms of science, commerce and education, there were also created social and economic conditions resulting in the creation of great combines and financial and industrial institutions, in the massing of unheard of fortunes by the few and the impoverishment of the many, the development of slums in large cities, leading in turn to the spread of socialist doctrines, the organization of labor, the ensuing struggle between capital and labor, and a general feeling of unrest.

Then came the Great War, and in the face of threatened destruction of those principles of personal liberty and those democratic institutions which are dearer to mankind than all things, the classes and the masses, capital and labor, the learned and the ignorant, in a word all men, laid aside their individual grievances and joined hands in a common defence of those things, the loss of which would mean the loss of something dearer than life itself. And in the fierce struggle which followed, the work of destruction of life and property went on on a colossal scale. Fifty years of constructive effort were swallowed up in less than five years of wholesale destruction.

Once again the people of the world face the constructive tasks of peace. The work of reconstruction, rehabilitation, must be proceeded with, but under great difficulties. The workers of the world have been reduced by the millions killed, and the hundreds of thousands maimed for life or reduced to physical and nervous wrecks of their former selves. A staggering burden of debt has been rolled up, and the means of carrying that burden reduced. The whole world must be again transformed from a war to a peace basis, and enormous social problems created by the war must be faced and solved.

Children Love Grape-Nuts

The natural constituents of barley and wheat, sweetened by sugar developed from the grains themselves in the making of this famous food, provide a true building nourishment not found so completely in other cereals . . .

"There's a Reason"

W. N. U. 1248

The condition is one which, it will be seen at a glance, calls for two seemingly irreconcilable policies: on the one hand the most stringent economy in expenditure; on the other hand, increased national expenditures in all directions to make good the losses sustained by war and to successfully grapple with the social problems resulting from the war.

There is only one method whereby the seemingly impossible situation now existing in all countries can be successfully faced and solved. The solution is to be found in the cultivation and realization of habits of thrift on the part of the individual citizen. During the years before the war, Canadians, and probably it is not wide of the mark to say Western Canadians in particular, were expending money with a lavishness which was not only unwise, unnecessary, unjustified, but absolutely foolish, even criminally so. In this country things were discarded and cast aside as useless waste which among frugal people were saved and transformed into something of value and devoted to a useful purpose. The majority of Canadians spent each year the full amount of their earnings. They laid nothing, or next to nothing, aside for a rainy day.

While everything was flourishing and times were good the folly of this course did not impress itself upon the multitude. They had never experienced the proverbial "rainy day," and could not imagine that such a time might come. But it came. The Great War brought it, and in the weeks following August 4, 1914, thousands of people suddenly realized, when it was too late, the value of savings, of a reserve account. Many an apparently flourishing business went to the wall because it had not laid up a reserve fund in times of stress and emergency, and workmen thrown out of employment without warning found themselves without the means of livelihood until other work could be found.

As time went on the war created an artificial prosperity in the production of war supplies and equipment, and it is probably true that, but for the loss of life, the accumulation of a big national debt, Canada did not suffer as a result of the war. But the greatest care must be exercised or Canada will suffer in these first years of peace. Prices obtainable for our production will decline and decline faster than will the cost of living and the burden of taxation. Unless our government are in a position to proceed with great national undertakings, involving large expenditures, a business depression will follow. The problems of peace will be, for Canada, more difficult of solution than the problems of war.

There is only one way to overcome the difficulties confronting the people of this country. It is by the exercise of thrift by the individual citizen. Thrift and saving should become a habit now while the prices of our products are high and work still plentiful. Every possible dollar should be saved now and held in reserve against a possible adverse future. If adverse conditions do not arise, then the man or woman who has saved a little something will be in a position to take advantage of such opportunities as may present themselves. If the adverse conditions do come, they will be able to stand off sorrow and disaster for themselves and prove a strength instead of a weakness to their community and nation.

Every person should, therefore, make an effort to save something each week or month from their earnings. The larger the amount the better, but at all events, something. An easy way to make a beginning is by the purchase of one or more Thrift Stamps at stated periods of time. These little twenty-cent stamps, small in themselves, quickly amount to a substantial sum and can be made a mighty factor in safeguarding the future. They serve a double purpose: They save for the individual purchaser, and they supply the Federal Government with the necessary revenues to keep the national life of Canada strong and vigorous.

To Remain Complete Unit
 Ottawa.—Announcement was made at a dinner of the Patriotic Club, composed of members of the Princess Patricia Canadian Light Infantry, that the regiment would always remain as a complete unit in the defensive forces of Canada. Incidentally it was stated that Lieut-Col. Hamilton Galt, the organizer of the regiment, who was wounded four times and lost a leg, is now commanding the battalion on the Rhine.

TO FINANCE GRAIN CROPS

Winnipeg.—Executive councils of the grain-exchange and the Canadian council of agriculture held a conference here last week with Hon. Arthur Meighen. The matter under discussion was the financing of Canada's grain crops, it being felt by the grain men that the federal government will be compelled to take active steps to ensure this end, as "an export market is to be found for the surplus grain grown in Canada. Hon. Arthur Meighen promised to take the matter up with the cabinet at Ottawa and give it every support.

It is not generally known that there exists in the Mexican Gulf a salt brackish in the cuttlefish of the Indian Ocean, from which, formerly the world's supply of India ink was obtained.

Hurrah! How's This

Cincinnati authority says corns dry up and lift out with fingers.

Hospital records show that the time you cut a corn you invite lockjaw or blood poisoning, which is needless, says a Cincinnati authority, who tells you that a quarter ounce of drug called freezeone can be obtained at little cost from the drug store but is sufficient to dry one's feet of every hard or soft corn or callus.

You simply apply a few drops of freezeone on a tender, aching corn and soreness is instantly relieved. Shortly the entire corn can be lifted out, root and all, without pain. This drug is sticky but dries at once and is claimed to just shrivel up any corn without inflaming or even irritating the surrounding tissue or skin.

If your wife wears high heels she will be glad to know of this.

Duisburg Occupied
 Amsterdam.—The commander of the neutral zone, east of the Rhine in the region of Duisburg, Rhineish Prussia, announces that allied troops will occupy the harbor and surrounding places on the right bank of the Rhine. Duisburg will be occupied by two companies of troops.

Minard's Liniment Cures Garget in Cows.

Winners for Marquis Wheat.
 Saskatoon, Sask.—W. T. Mathison, of Moose Jaw, won the first prize for Marquis wheat in the standing field corn competition at the provincial seed fair. This exhibitor was also awarded the first prize in the Marquis wheat open competition.

VICTIMS OF LA GRIPE

Left Weak, Disheartened and An Easy Prey to Other Troubles

A Nova Scotia Man Tells How He Found New Health and Strength

If you have had an attack of la gripe, or Spanish influenza you are not out of danger until your blood is restored to normal.

Influenza leaves behind it weakened vital powers, thin blood, impaired digestion, and over-sensitive rheumatism, and nervous prostration. In this condition the system becomes an easy prey to deadly pneumonia, bronchitis, nervous prostration, rheumatism and even consumption. Ask anyone who has had an attack of influenza what their present condition of health is and you must quickly answer "Since I had the gripe I have never been really well." This general feeling of weakness, fatigue and the blood is built up again, and for this purpose nothing can equal a fair treatment with Dr. Williams' Pink Pills. From first to last these pills make new, rich, red blood which reaches every organ and nerve in the body, and through this weak, despondent victims of influenza are transformed into cheerful, healthy, happy men and women.

Among the many victims of la gripe who proclaim the value of Dr. Williams' Pink Pills is Mr. Amos Kaulback, of Pettie, Ontario, who says:—"I was taken down with a severe attack of la gripe, or influenza. After a time the early symptoms of the trouble left me, but I did not regain my usual strength, and I had always been a strong man. There were times when I felt I could hardly crawl about, and I was so run down I could scarcely go about my business. I continued taking medicine but it did me no good. Then I found the trouble was affecting my digestion and the disagreeable feeling from this added to my general misery. I was finally obliged to take Dr. Williams' Pink Pills, and I decided to try them. I had only been taking a few pills a few weeks when I felt my strength returning, my appetite improved, and still continuing the use of the pills a few more months I was restored to my old-time vigor. I can most strongly recommend Dr. Williams' Pink Pills to all who have passed through an attack of influenza as a safe medicine for renewing their strength."

You can get Dr. Williams' Pink Pills through any dealer in medicine, or by mail at 50c a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Took Peace News to Arctic

Dawson, Y. T.—Special Indian runners who were despatched by the government in November with instructions to return have arrived back from the interior, completing the round trip of 1,000 miles through the Arctic wilderness, including the crossing of the Rocky mountains. They brought the first news from the Arctic coast since summer. They also took to the Arctic coast the latest news of the declaration of peace. Col. Knight has been ordered by the Fairbanks health commissioner that the influenza is raging all along the Copper river among the Indians.

CHILBLAINS

Easily and Quickly Cured with **EGYPTIAN LINIMENT**
 For Sale by All Dealers
 Douglas & Co., Prop'rs, Nanaimo, B.C.

War Service Gratuity

Winnipeg.—War widows, dependents and next of kin of men "killed in action" or died of wounds should apply for the war service gratuity recently granted by order in council, according to information received by A. Pearce secretary of the returned soldiers Manitoba commission.

President To Be Elected By People

Must Have Been a Citizen of Germany for 10 Years

London.—Details of the proposed new constitution for Germany, drawn up recently at a conference of the well known authorities on constitutional law, including the state secretary of the interior in the Ebert government, are given in an official despatch sent out from Berlin and picked up here. It states that the empire is to consist of its former component states besides any territories which by virtue of the right of self-determination desire to be received into the empire.

The despatch declares that the people have the right, regardless of former frontiers, to erect new German free states within the empire provided any such free state has a population of 200,000. If the people of a border country wish to join the German empire the assent of the German people shall be required.

The imperial president who is to be elected by the people must be 35 years old, and must have been a citizen of Germany for 10 years before the election. He will be elected by an absolute majority of all the votes of the empire.

The president will represent the empire, but declaration of war or conclusions of peace rest with the Reichstag. Treaties with foreign states require the assent of the Reichstag. As soon as a league of nations, the object of which is the execution of secret treaties, has been formed, all treaties with the league shall require the assent of the Reichstag.

The imperial president's tenure of office will be for seven years, and his re-election will be permissible.

The imperial government will be composed of a chancery and ministers chosen by the president in the Reichstag. The government must have the confidence of the house of deputies and shall be responsible to the Reichstag.

Only One "BROMO QUININE"
 To get the genuine, call for full name J.A.V. BROMO QUININE Tablets. Look for signature of E. W. GROVE. Cures Cold in One Day. 50c.

Canadian Troops Enroute to England

Montreal.—All the Canadian troops have left the occupied portions of Germany and are now in Belgium and France, en route to England, from where they will be sent home to Canada, said Major-General Dods, C.M.G., D.S.O., the first military governor of Bonn, who has just reached home after four years' service with the Canadian troops.

The ease with which corns and warts can be removed by Holloway's Corn Cure is its strongest recommendation. It seldom fails.

Britishers Demand Full Costs of War

London.—The British empire producers' organization has written to Premier Lloyd George, stating that the affiliated associations of the empire, representing well over \$5,000,000,000 of British capital, have now cabled endorsing in the strongest terms the organizations' demand that the central powers shall pay Great Britain an indemnity commensurate with the cost of the war.

There are two kinds of freedom—the false, where a man is free to do what he likes; the true, where a man is free to do what he ought.—Charles Kingsley.

Livesay Eulogizes Canadian Troops
 Montreal.—J. F. B. Livesay, assistant general manager of the Canadian Press, Limited, at Winnipeg, who went overseas last August to represent the Canadian Press with the Canadian forces at the front, arrived in the city, having come over on the Olympic. Mr. Livesay, who left for Toronto, en route home, speaks most enthusiastically of the work of the Canadian army corps.

Some persons can do a favor with a manner that makes them lifelong enemies.

President To Be Catarrh and Dyspepsia

Undermined the System and—Nerves Gave Way—Hospital Treatment Failed—How Cure Was Elected

Preceville, Sask., Jan. 20.—This letter will give you an idea of what you may expect from this combined treatment for catarrh. While Dr. Chase's Catarrh Powder surely relieves from the stomach-up air passages, headaches and annoying symptoms of catarrh, the Nerve Food cures the blood and builds up the system, so that the disease is entirely overcome. This is the ideal treatment for catarrh and its ravages on the human system.

Mr. Ed. J. Jones, Preceville, Sask., writes: "I suffered for some time with catarrh and dyspepsia, and my nervous system became quite run down. My food disagreed with me and I was constantly bothered with indigestion. I also suffered from frequent headaches. I tried several doctors, and was in the hospital for a time, but could get no relief from any treatment until I began using Dr. Chase's Nerve Food and Catarrh Powder. This combined treatment has done wonders for me. I never have a headache now, and I am able to operate on both the stomach and the bowels, so that they act along the whole alimentary and excretory passage. They are not drastic in their work, but mildly purgative, and the pleasure of taking them is only equalled by the gratifying effect they produce. Compounded only of vegetable substances the curative qualities of which were fully tested, they afford relief without chance of injury."

Unless a man tries he never knows what he can do.
 Dr. Chase's Catarrh Powders, 25 cents a box. Dr. Chase's Nerve Food 50 cents a box. All dealers, or Edmanston, Bates & Co., Ltd., Toronto. Look for the portrait and signature of Dr. Chase, M. D. on the box you buy.

A Pleasant Purgative.—Parthenol Vegetable Pills are so compounded as to operate on both the stomach and the bowels, so that they act along the whole alimentary and excretory passage. They are not drastic in their work, but mildly purgative, and the pleasure of taking them is only equalled by the gratifying effect they produce. Compounded only of vegetable substances the curative qualities of which were fully tested, they afford relief without chance of injury.

Women seldom suffer. Probably it's because they have so much to say, and haven't time.

Packing Plants are Busy
 Growing Industry Bringing Increasing Prosperity
 In December, 1918, the disbursements of one of the packing plants at Edmonton, Alberta, for cattle, hogs, sheep, calves, turkeys, chickens, geese, ducks, cream, and for freight and labor connected therewith, amounted to \$1,234,000. These figures convey some idea of the great and growing importance of this industry to the city and surrounding territory. This territory is capable of considerably greater production and with the convenient markets, great development is being looked forward to during the next few years. The packing companies are preparing for this development by increasing the size of their plants.

It's a good thing to have opinions and it's a better thing to keep the lid on them sometimes.

A Kidney Remedy
 Kidney troubles are frequently caused by badly digested food and indigestion. These organs tend to eliminate the irritant acids formed. Help your stomach to properly digest the food by taking 15 to 30 drops of Extract of Rote, sold as Mother Seign's Curative Syrup, and your kidney disorder will promptly disappear. Get the genuine.

Germany's Polish Army
 Vienna.—It is announced in diplomatic circles here that the number of troops the Germans are mobilizing under Field Marshal von Woytowicz for counter-acting a Polish invasion of Germany, will aggregate two army corps.

Minard's Liniment Co., Limited.
 Gentlemen.—Last winter I received great benefit from the use of MINARD'S LINIMENT in a severe attack of LaGrippe, and I have frequently proved it to be very effective in cases of inflammation. Yours,
 W. A. HUTCHINSON.

Smallpox in Dresden
 Geneva.—A sudden and violent epidemic of smallpox has broken out in Dresden, according to a telegram from Constantinople. Official reports show 125 cases of the disease which is said to have come from northern Bohemia where smallpox has been raging for several weeks.

The worms that infest children from their birth are of two kinds: those that find lodgement in the stomach and those that are found in the intestines. The former are the most destructive, as they cling to the walls of the intestines and if not treated with worm-harve they kill the worms. Worms dislodge both kinds and while expelling them from the system serve to repair the damage they have caused.

It's awfully hard for a man to look sad when his wife is making preparations to spend a week in the country.

Minard's Liniment Cures Diphtheria.

Canadian Cattle on U. S. Markets
 The shipments of cattle through North Portal, Saskatchewan, from the ranches of Saskatchewan and Alberta to the markets of St. Paul and Chicago, have never been equalled. During the past two months and a half over 1,300 cars, totalling 30,000 head and valued at about \$3,000,000, have been exported, and the shipments, owing to the mild weather, still continue.

The man who is aware of his ignorance knows a whole lot more than some people, and he stands a better chance of making good.

Women seldom suffer. Probably it's because they have so much to say, and haven't time.

Chinook Consolidated S.D. No. 16

ANNUAL MEETING

The annual meeting of the
ratepayers of Chinook consoli-
dated S.D. was held in the school
Jan. 11th, at 2 p.m.

Jas. Young in the chair.
Minutes of last annual meeting
were read and adopted.

The teachers' reports were read
by Mr. Yake, and the financial
and other reports for the year by
the Sec.-Treas.

The following trustees were
elected for the year:

Bison S. D.—H. T. Lensegraf
Crocus—N. F. Marcy
Popular—Sam Macchell
Buffalo Plains—Jas Young
Carpathia—Geo McIntosh
Adjourned

The first meeting of the Board
of Trustees for the year 1919 was
held in the school on Jan. 11th,
at 9 p.m.

Members all present.
Jas Young was elected chair-
man for the year.

Lensegraf, that an advt be
placed in next issue of the Chin-
ook Advance, asking for tenders
for the position of Sec.-Treas.
of the school district for the year.

Following accounts were paid:
R S Woodruff 21.55
M L Chapman, draying 3.00
L Proudfoot, money paid

for library case and desk 20.00
L Proudfoot, exch on chks 4.50
Bison S.D. debentures 142.00
Alta Pacific Elev Co, coal 156.60

McIntosh, that Mr Marcy re-
port at next meeting on vans,
robes, foot warmers, etc.

Young, that meeting do now
adjourn to meet again on Jan.
22nd, the trustees to come in
the morning and spend the fore-
noon and part of the afternoon
in visiting the school.

The second meeting of the
Board was held on Wednesday,
Jan 22nd, at 2 p.m.

Members all present
Lensegraf, that Mr. Macchell
see F Coates, van driver on route
No. 1, telling him that in good
weather he may convey Mr Os-
born's child in an open rig from
Mr Bennett's to Mr Osborn's,
providing he sees that he is well
wrapped up in robes, but that he
must take him all the way home
every night, and must run the
van as nearly as possible on time

Macchell, that Mr Yake make a
list of the supplies required for
primary room, also the few books
asked for for the library, and
submit the same at the next
meeting.

Lensegraf, that Mr Marcy see
Mr Whiteside re making cup-
board for apparatus, stands for
library sections now set up on
chairs, and a sand moulding
machine.

Lensegraf, that the bill of Chas
McLeod be laid on the table un-
til next meeting.

Young, that Mr. Cameron be
paid \$33.35, balance of salary as
janitor for last year.

Young, that the Dept be asked
to send a copy of the School
Ordinance, also a copy of the
program of the studies, to each
trustee.

Lensegraf, that Lorne Proud-
foot be re-engaged as sec.-treas.
of the district, salary \$250, same
as last year.

Macchell, that the Secretary
arrange with the Supt of Public
Health Nurses for having a nurse
visit the school and district, the
Govt paying the expense of this
visit.

The Chairman and Secretary-
Treasurer were given authority
to borrow money, sign cheques,
etc., on behalf of the S.D.

M. D. of Collinholme

The 1st meeting of the above
council was held in the Collinholme
schoolhouse, on Saturday, Jan.
5th.

Members present: Messrs.
Falconer, Key, Marr, McLennan
and Harrington

Minutes read and adopted.
The seed grain by-law was read
three times and passed.

Marr, that the report of the
committee of the whole council
on seed grain applications be
accepted, and the following amts
of seed be allowed as soon as
notes sent to the government are
guaranteed and money advanced
by the bank:

Frank Hunter wheat 100 bush
Hy Falconer " 50 "
Jas Maudsley oats 60 "
Robt McFadden " 100 "
and 90 bush wheat

Alex McLennan, wheat 150 "
Dav Vanduzee wheat 50, oats 60
" wheat 25

C Bossenberry wheat 50, oats 52
P A " wheat 40, oats 50
R M Fee oats 75

Geo Thompson wheat 50, oats 40
Horace Dunster oats 60
Nestor Anderson oats 100

Adam Marr oats 75
Peter Howarth wheat 130
Bert Bjorsvick wheat 40, oats 25

A C Anderson wheat 50, oats 20
Ant Hettler oats 100, barley 20
Geo Marr oats 50

L Larson wheat 70, oats 40 and
barley 20
Geo Hughes wheat 100

Resolutions for convention of
Rural Districts:

Falconer, that the Provincial
Government be requested by this
Association to extend as quickly
as possible its telephone system
to the many well-established
rural districts in the province
that are still without it and whose
settlers after years of hardship
and isolation now feel that they
should no longer be denied the
economic and social advan-
tages of having the phone in their
homes.

Marr, that section 214 of the
Municipal Districts Act be so
amended that the Council of any
Municipal District in which a
municipal herd law is in force
may, if such provision is con-
tained in their herd law, have
authority to shorten or lengthen
by a period of time not exceed-
ing one month, the time during
certain animals are to be restrain-
ed, if the condition of the har-
vesting and threshing operations
for that particular year demand
such action.

Marr, that the Council of a
municipal district may pass a
municipal herd law by which

The estimates for the year
were as follows:

Expenditures	
Conveyance of children	7200 00
Teachers' salaries	4340 00
Janitor's salary	530 00
Sec.-Treasurer's salary	250 00
Debtenture payment	1695 00
Well, fencing, etc.	500 00
Fuel	500 00
Additional equipment and supplies	500 00
Total	\$1615 00

Assets	
1919 taxes	15500 00
Estimated gov grant	3000 00
Total	18500 00

and a copy of these estimates, as
well as a copy of the auditor's
report for last year be sent to the
Union Bank, Chinook

Lensegraf, that the tax rate
for this year be 14 mills on the
dollar, and that the Secretary-
Treasurer request the Minister
of Education to grant permission
to levy such rate.

Adjourned.

The cost of ALBERTA MUNICIPAL INSURANCE is so low that no farmer can afford to be without it—

Consider this. Over a period of five years (1914-18)
The Alberta Municipal Hail Insurance District has
carried a total of \$33,000,000.00 of insurance at an
average cost of less than 53¢. During that time the average
cost of operating expenses was only a trifle over five
cents on the dollar. The new plan promises even better
results.

As there are no profits to be made or no dividends to
be paid, it provides the opportunity for fair adjustment
of all claims on the basis of actual damage done.

You will save money by voting for Municipal Hail In-
surance at the forthcoming Election.

FOOD SAVING CONTINUES TO BE THE RULE AT RIDEAU HALL

DUCHESS OF DEVONSHIRE BELIEVES IN THE NECESSITY FOR CONTINUED EFFORT IN FOOD CONSERVATION THROUGHOUT THE NEW YEAR

Extract from letter sent to the Canadian Food Board by Her Excellency the Duchess of Devonshire.

"I am much interested to hear of your efforts to encourage the use of codfish from the wonderful Canadian fisheries as a means of increasing the food supplies of the world.

"The Duke and I fully realize the necessity for continued effort in food conservation, in order that the starving people of the devastated countries of Europe may be fed.

"We can all help to attain this end by making the fullest possible use of the natural resources of this country. We shall go on using large quantities of fish and vegetables at Government House as long as it may be considered advisable to do so."

EVELYN DEVONSHIRE

The New Year is naturally enough a time to take stock of the events of the past twelve months, to sum up what has been accomplished and to look into the future. A New Year, with peace on earth again, is so strange an occurrence that it is hard to grasp its real significance. There is a feeling abroad that it is the end of things, rather than the beginning of a new era of effort, frugality and subsequent prosperity. There is a danger of relaxation and lassitude which could only be fatal to the future of the country. We cannot afford to rest on our oars at this juncture, no matter how hard we may have striven to cope with difficulties during the past four years.

The women of Canada have been conspicuous in all their war work and credit is especially due them for the whole-hearted way they have given themselves up to the work of food conservation. Women are essentially the nation's food savers and they are principally responsible for Canada's record in sending foodstuffs overseas to meet the needs of allied Europe. It is not too much to say that they have forged one of the most binding links in the chain which was gradually wound around the enemy. And the marvel of our voluntary food saving, now that we can look squarely at results, is that no one actually suffered any hardship from it; that we are all better in health and spirits; and that we have gained a more unselfish viewpoint. We have a new appreciation of the value of food that will prevent us from ever again wasting it as we did in the old days. We have come to understand the religion of saving and to realize the place that food occupies in our new world-wide human relations.

It is abundantly apparent now how food control made sufficiently from shortage, kept the rain on food prices and elicited a fine spirit of voluntary co-operation from the people of Canada. Figures furnish the most eloquent testimony to what has been accomplished and some measure of the size of the problems which have had to be met may be gained from the following table of the value of foodstuffs exported since the war began:

For fiscal year 1914-15	\$187,011,300
For fiscal year 1915-16	332,455,900
For fiscal year 1916-17	482,619,000
For fiscal year 1917-18	710,619,400

So much for the past. The great objective has been reached. The Canada food board accomplished what it set out to do, with the help of the women of the Dominion. But there is much to be done in the New Year. There are tremendous deficits in live

stock in Europe amounting to something like 120,000,000 head. Milk is almost at the vanishing point in some countries. Great Britain will depend upon Canada and the United States for animal fats for some time to come. France will require many millions of dollars worth of foodstuffs from abroad for years to come. The troops will have to be fed for two or three years yet before demobilization is completed. The shortage of butter in Great Britain is still very acute and the per capita consumption there remains only about one-eighth of the consumption in Canada.

So that the clear duty of Canadian women for the next few months and, indeed, for years to come, is to practice general thrift; to aim at a nation of better and more frugal housekeepers; to co-ordinate food saving with money saving. The continued use of fish and vegetables, a greater demand for the cheaper, rather than the more expensive, cuts of meat; and care in the use of sugar and fats are all essential if we are to meet the more immediate demands upon us. Many of the food restrictions have been lifted but it is left to the individual conscience of the woman in the home to confine in the way she has been going for months past and thereby to help along the work of reconstruction. There is a stringent period ahead of us. Annual interest upon our war debt alone will amount to over \$70,000,000. The French people set the whole world an example of industry and thrift when they went to work to pay off the crushing war indemnity levied on them by Germany after 1870. What the French did then, Canadians can do now. If every woman in the land throw herself heart and soul into this thrift campaign Canada's future among the nations is assured.

Responsive to the spirit of the time the Duchess of Devonshire, writing of the food situation, says: "The Duke and I fully realize the necessity for continued effort in food conservation, in order that the starving people of the devastated countries of Europe may be fed. We can all help to attain this end by making the fullest possible use of the natural resource of this country. We shall go on using large quantities of fish and vegetables at Government House as long as it may be considered advisable to do so."

Medical Help Needed in Siberia. Vladivostok. — There is urgent need for doctors, nurses and medical supplies in Western Siberia, declared Dr. Arthur Rudolph Tausler, head of the Czechoslovak medical service, who arrived here from Ekaterinburg and Omsk. The spread of typhus and the coming of 200,000 Russian soldiers formerly imprisoned in Austria and Germany, the doctor said, will tax every agency to the utmost.

Airmen Defy Cold On Murman Coast

Task in Northern Russia Is Very Difficult

London. — British air forces daily defy the intense cold on the Murman coast. Reconnaissance flights are made, bombs are dropped and propaganda leaflets scattered. Even on the ground the cold is terribly severe and, of course, it becomes more so the higher the aviators fly. Daylight lasts only a few hours and night flying is dangerous because of the difficulty of locating the airframe where the deep snow obscures ordinary landmarks.

Frequently owing to the cold the airplane wires snap from crystallization, while the engines give endless trouble. Boiling water put into the radiator becomes cold before the engine can be started. Oil thickens rapidly. Pilots and observers are frost bitten in spite of electrically-heated clothing and other devices for combating the cold. Those who would attempt a flight to the north pole should avail themselves of the lessons learned by the Royal Air Force on the Murman coast.

Not only service flying but mechanical work of all sorts goes on there. Machines are repaired and sometimes rebuilt. Spare parts not in stock are made locally.

Little capital is required to grow a few hogs and the profit comes quickly.

Germans Send Protest to Russia

Will Take Vigorous Measures Against Russians Who Aided Insurgents

Berlin. — Germany has sent a note to the Russian government protesting against the latter's support of the Spartacists, a Berlin despatch announced. The note read in part as follows:

"We are in possession of irrefutable proofs that the revolts intended to overcome the German people were paid for with money officially supplied for the purpose by the Russian authorities. Some of the authorities have even taken an active part in the movement. The German government protests against this intervention in Germany's interior affairs and will take vigorous measures against the Russians who aided the insurgents and who are still supporting them."

It was also announced that recently Bolshevik forces advancing towards East Prussia captured Mitau, Schaulan, Tuklum, Goldutz and Boheljan.

Town Cleaning

Rapid City is being made more slightly by the removal of a number of old buildings that have long since served their usefulness. The removal of such eyesores in other places, even in Winnipeg, would be beneficial in more respects than the matter of appearance.

Neutrals are Dissatisfied

Contend No Distinction Should Be Made Between Belligerents and Non-belligerents

Paris. — The decision that the league of nations will be outlined and organized by the belligerents alone is understood to be the cause of some dissatisfaction among the neutrals, who already are informally discussing the matter among themselves.

Whether any formal action will be taken by the neutrals to voice their protest is not yet known, but among some of them there is said to be a feeling that it would be neither fair nor dignified that they be afterwards asked to subscribe to a covenant in whose making they had no part.

The neutrals, it is understood, do not claim participation in the discussion of peace terms because they took no part in the war, but they contend that the league of nations is an international institution, independent of the war, therefore no distinction should be made between belligerents and non-belligerents. It is also pointed out that among the neutrals there were several countries whose anti-German feeling in the war was strong, but, owing to their geographical positions and other factors they were forced to remain neutral.

Make all you can honestly; save all you can prudently; give all you can possibly.—John Wesley.

LET'S PULL TOGETHER

Are we, as a community, pulling together? Or are we pulling in opposite directions? Organization is the great community need of the day. Without organization men and women are apt to sink below the level of mules. Even mules, in times of danger or panic, have been known to co-operate. They sometimes kick together. If it were given to mules to think, they would wonder at the ways of men. That men and women, living and working in the same community, should refuse to co-operate, is one of the riddles of civilization. The only benefits worth having are the benefits we can share with our neighbors. Individual benefits cannot be secured when all pull together. Every man, woman and child in this community should give one hour each day to community work. But, don't wait for someone else to start it. There is work for you to do. Begin with yourself.

SUNDAY SCHOOL LESSON

LESSON FOR FEBRUARY 2 — THE GIVING OF THE MANNA

1. Lusting for the Flesh Pots of Egypt (16:1-36).

1. Murmuring against Moses and Aaron (v. 1-3).

As they journeyed from Elim into the great wilderness they became conscious of the scarcity of some of the things they had enjoyed even in Egyptian slavery. Only a few days ago they were singing God's praises for their wondrous deliverance at the Red Sea (Ch. 15). Now at the beginning of their privation they are murmuring. They utterly lack spiritual perception. They were a free people on the way to their own land. What did it matter, with such a prospect, though they were a bit hungry? This complaining showed a base ingratitude and was most dishonoring to God. Unthankfulness is a sign of heart corruption (Rom. 1:21).

2. God's answer to their murmuring (v. 4-12).

(1). He promised to rain bread from heaven (v. 4, 5). His purpose in this was to teach them that "man doth not live by bread alone, but by every word that proceedeth out of the mouth of the Lord." (Deut. 8:3). The manna was given by God, but the people must gather it. (2) He promised to give them a vision of his glory (v. 6-10). This served as a warning and an encouragement. Despite their murmuring against him he invites them to come near unto him. Wonderful grace, that sinful, ungrateful men should be permitted to come near God! (3) Flesh and bread promised (v. 11, 12). God answered the cravings of the people by giving them quails and manna to eat. How gracious is our God!

2. Quails and Manna Given (16:13-15).

At the appointed time God gave the Israelites the promised food. He first allowed them to feel their need, to show that man's highest need is to believe God and rely upon him for all needs (Deut. 8:2, 3; Matt. 4:3, 4). He then displayed his glory showing that they were able to receive it.

ply their need if they would obey him.

1. In the evening the quails came up (v. 13).

2. Since they desired flesh he gave them flesh to eat. This is an example of the patience and long-suffering of God. How he caters to the whims of his vacillating children!

2. In the morning God gave the manna (v. 14, 15).

The Israelites did not know what it was. They exclaimed: "What is it?" Moses told them it was the bread which the Lord had given them to eat.

3. The Responsibilities of the Israelites (16:16-31).

1. They must gather a certain ration daily (v. 16 cf. v. 4).

This was to test their faith. They must look to him for their daily bread (Matt. 6:11).

2. Every man was to gather for himself (v. 16 cf. v. 20).

The manna typified Christ (John 6:33, 51). As each man was to gather for himself so each one must appropriate Christ for himself.

3. The manna must be gathered fresh every morning (v. 21).

This was to be done early, before the sun was up. Christ, our manna, should be taken each day, and the first thing in the day (John 6:57).

4. They must not gather in excess of one day's supply (v. 18, 20).

That which was in excess of the day's supply became corrupt. Christians should make use of the gifts bestowed by God. God's graces are only good when put to use.

5. The manna must be eaten to preserve life.

They were in the wilderness, so could only live by eating of the food which God gave. In the wilderness of this world only those who feed upon Christ, the true manna, have eternal life (John 6:50, 51).

Due consideration should be given to the Sabbath day (v. 22-31). A double portion was to be gathered the day before.

6. Manna Kept as a Memorial (16:32-36).

This was to be kept as a reminder of God's favor in supplying them with bread in the wilderness for forty years.

Carl Liebknecht Captured

Spartan Leader Seized and Taken to Hotel in Berlin

Berlin. — Karl Liebknecht the Spartan leader, has been captured by officers and men of the division of mounted rifle guards who arrived in Berlin. The Spartan leader is said to have been seized and taken to the fashionable hotel Eden in the western part of Berlin. Private telephone communication with the hotel was cut off abruptly soon after it was announced he had been taken there.

The wife and youngest son of Dr. Liebknecht who were arrested when Liebknecht's house was surrounded by soldiers and searched, have been released. Many incriminating Bolshevik documents were seized. Liebknecht's eldest son is still in the hands of the police. Among others arrested was Francis Jakob, secretary of the Spartacus union. Still nothing is known of the whereabouts of former Chief of Police Eichhorn or Rosa Luxemburg.

Beaver Very Plentiful

Prince Albert. — Beavers have become so plentiful in the municipality of Buckland that on the Garden river, 15 miles north of Prince Albert, several dams have been built which the farmers feel will result in the inundation of their hay meadows next spring. Applications are being made to the government for permission to destroy the dams. The council will also likely apply for the right to kill a certain number of the beaver each year, the revenue from the sale of the skins and meat to be handed to the municipalities.

Has Meant Equality of Nations

Toronto. — "England's supremacy of the seas—if you like that expression, has always meant equality for all nations, and in times of war Britain must maintain her fleet to resist unjust aggression. If she did not she would starve in a week," so declared Hon. W. H. Taft, former president of the United States in a vigorous and studied speech before the Empire Club in the King Edward hotel.

Boost the Boy

There are no bad boys. We make this statement confidently, knowing that it will be endorsed by educators and all those who have spent their lives in working in the boy problem. We will defend it in spite of all the broken windows, stolen oranges and canned dogs in Christendom.

There are weak boys, boys who lack resourcefulness, boys whose ideas of right and wrong are distorted, but there never was a bad boy who did not naturally, consciously or unconsciously, do the things that he believed to be right.

The trouble comes, as the Scout leaders have found, when parents, teachers and others who are responsible for the youngster's development fail to fill his time with useful energy. The forces of nature must operate. We cannot stop them while we take our afternoon nap. The wind must blow, the water must flow and the boy's brain and muscles must work. We put a windmill in the path of the wind and the unseen force draws water as joyously as it upsets the chairs on the verandah and whisks the family wash from the line. We put a water-wheel in the stream and it grinds the grain with the energy which it would otherwise dissipate in washing out the banks and rooting out the trees. These things we know, yet too often we permit youthful energy, our most valuable asset, to run riot. We even attempt to dam it, and then complain because it slips over and does damage.

The Boy Scout program is the mill in the stream of boyhood. It provides something useful for every boy to do every minute. Knot-tying, first aid and bandaging, signalling, trailing and tracking, fire building and extinguishing, camp cooking, swimming, earning and saving money, tramp, map-making and map reading and the practical study of flowers, plants, trees, earth and sky are included in the Scouts' program. After these a much broader field is opened, including foundation work in every known trade and profession.

Medina Has Fallen

Holy City Has Capitulated Under Turkish Armistice Terms

London. — The Turks who have been holding out in Medina, holy city of the Mohammedan faith, have capitulated to the king of the Hejaz, it was officially announced here. The capitulation was under the terms of the Turkish armistice. Announcing the capitulation and explaining the delay in securing it, the official statement says:

"The holy city of Medina has capitulated to King Hussein under the Turkish armistice terms. The delay in bringing the garrison to compliance with the terms was due to its long isolation, which necessitated our permitting the interchange of special communications with Constantinople and to permit this armistice period to be prolonged locally. It was rendered incumbent upon King Hussein to secure the capitulation by arrangement and not by assault.

"The Amir Abdullah, representing the king of the Hejaz, has officially entered Medina. He has enthusiastically acclaimed and proceeded to the tomb of the prophet, where he offered the midday prayer."

Fatal Riots in Hamburg

Paris. Disorders in Hamburg in which several persons were killed and others wounded are reported in dispatches by way of Zurich. The disorders were incident to demonstrations in connection with the demand for release of the sailors who had been imprisoned by the government as the outcome of previous disturbances.

Minister of War Assumes Command of German Army

Amsterdam. — Supreme command of the German peace army has been transferred from the people's commissioners to the minister of war, who will be responsible to the government. The transfer was made with the approval of the soldiers' and workmen's council, which will still be responsible for all social and economic regulations concerning the army.

Officers will in future wear a dark blue stripe on the left sleeve. All other distinctive marks have been abolished. The obligation to salute is reciprocal, but has been abolished in the big cities.

London. — Since German troops were summoned to put down the Spartacist uprising in Berlin the army has been assuming a position of greater importance, according to advice received here.

Great Britain May Restore Mesopotamia

In the Future It May Become a Great Country

London. — Improvements of great importance have been made in the channel State of Arab, which is the river formed by the confluence of the Euphrates and Tigris rivers, according to the Journal of the Mesopotamian board of trade. Ocean-going steamers may now go up the river from the Persian Gulf as far as Nahrum, which is about twenty miles above Basra.

Part of the Journal is devoted to the irrigation projects which are now being carried out in the valley of the Euphrates. Regarding the immense benefits which might be derived from systematic irrigation, the Journal says:

"In olden times lower Mesopotamia, as the result of artificial irrigation, was a forest of perennial verdure and a country of great cities thronged with thriving people. The dead hand of the Turk has pressed heavily upon Mesopotamia and its people. In the past it was a great country. In the future it may again become a great country, but at present it is moribund. Yet the rich soil retains life. A wonderful recovery is within possibility and Great Britain has solved more difficult problems in the empire than are presented by the restoration of Mesopotamia."

Sinn Feiners Killed Two Policemen

Dublin. — The Sinn Fein parliament provided only a one-day sensation. Its members held a brief meeting at the Mansion house, but behind closed doors. Afterwards Count Plunkett told the reporters that a statement of the business transacted would be furnished to the press later, thus following the precedent of the Paris conference.

A group of a hundred young men gathered outside during the secret session, but no excitement of any kind was shown. The public was far more interested in the murder of two policemen in Tipperary at the time the parliament was meeting.

Farmers Want Men Released

Winipeg. — Immediate release of all soldiers and sailors in Canada who are required on Manitoba farms is demanded by farmers of the province. A strongly worded resolution to this effect was unanimously passed at the Union of Manitoba Municipalities convention here. It will be sent to Ottawa immediately. Hon. Arthur Meighen, minister of the interior, declared that in his opinion the request of the municipal convention should be granted, and he will take up the matter immediately on his arrival in Ottawa.

It is the struggle to keep up appearances that keep some persons down.

Congress Wants Russia To Settle Internal Difficulties

Paris. — Led by President Wilson, the supreme council of the great powers moved to unite the factions of distracted Russia and bring them into the peace congress.

They unanimously adopted a proposition brought forward by President Wilson, asking all the Russian factions, including the Bolsheviks, to meet the allied and associated governments at Princes Islands, the sea of Marmora, on February 15, the contending factions meantime declaring a truce and suspending all military operations.

Aside from the importance of the conclusions reached, it was especially notable as being the first time that

Irish Peace Delegates

Dublin. — According to the provisional constitution of the Irish republic now before the "Dail Eirean," legislative powers are to be vested in deputies elected from existing parliamentary constituencies. The ministry will consist of a president and four executive officers — secretaries of finance, home affairs, foreign affairs, and national defense. All revenues will be raised on the vote of the "Dail Eirean," the constitution may be altered upon seven days' notice. Count Plunkett, Professor Edward De Valera and Arthur Griffith will probably be appointed Irish delegates to the peace congress.

Germans Wanted a Short Cut to Peace

Bombs From Air Were a Nightmare to Them

London. — First hand information as to the results of the bombing of Bruges gives a vivid idea of why the Germans, as the British aerial strength developed, wanted to find a short cut to peace.

"One gazed amazed at the gigantic work involved in the defensive fortifications," declares a writer just back from Bruges. "Bombs from the air became a nightmare to the Germans. All the dock area is full of bomb holes. Pontons, sheds, wharves and dugouts covered with reinforced concrete are in ruins. One heavy bomb struck a destroyer in a pontoon drydock and destroyed both vessel and pontoon. Another pontoon was so badly damaged that the Germans blew it up, together with the submarine in it. The latter now lies in halves, the bow in the remains of the pontoon and the stern blown on the bank of the canal."

Arms Found By Government

Will Consider Regulations Regarding 1,000 Bolsheviks

Warsaw. — Several thousand rifles, many machine guns and thousands of hand grenades, intended for use in an attempt to overturn the Pilsudski government, which has now been succeeded by the Paryzewski government, were discovered in Warsaw. The government authorities also arrested 1,000 Bolsheviks. The arrests were made in an effort to secure orderly elections to the national assembly.

Prince Sappica, who led the brief and futile attempt against the Pilsudski government a fortnight ago, is still in prison. He will be released when the political situation becomes settled. However, there is no law under which he can be prosecuted.

State of Hedjaz Wants Autonomy

Paris. — Prince Feisal, a son of the king of the Hedjaz, has compiled a memorandum for presentation to the peace conference asking complete independence and autonomy for the Arabian state of the Hedjaz to consist of Syria, Upper Mesopotamia, Lower Mesopotamia, Yemen and Nejd. The territory of Nejd is a tribal state. The prince invites the peace conference to send a commission to these districts to ascertain the real desires of the people.

Berne. — "President Wilson will achieve a workable and feasible league of nations and with the full strength and influence of Great Britain solidly behind him," Arthur Henderson, British labor leader, declared to the Associated Press.

Club Must Still Be Held Over Huns

Taft Declared League of Nations Necessary

St. Catharines, Ont. — "We were fighting, not the Hohenzollerns alone, although they were leading, but we were fighting the German people, impregnated with the doctrine of world domination," declared W. H. Taft, former United States president, in a lecture here. "A surgical operation was needed, not by a sharp instrument, but a club. This we have done, and we must hold that club for further application if necessary, in case it should later develop that a radical cure has not been effected."

Mr. Taft declared that, "If we are to clinch our purposes in the war, a league of nations is necessary." A movement is on foot to open a series of conventions to educate the American people to the need of such a league by the holding of nine conventions in as many cities in various sections of that country in February, and he had decided to try it on Canada first.

Second Revolt in Two Weeks

Washington. — The present revolution in Portugal, seeking to restore the monarchy, is the second movement within two weeks, it was learned at the state department. Information reaching the department shows that this outbreak, about ten days ago, was suppressed by the government and that several of the leaders are still in jail.

Survey Aerial Route

Melbourne. — It is announced that the commonwealth government has sanctioned the formation of a company to survey an aerial route between Australia and the Far East.

Sir George McL. Brown.

A NEW CANADIAN KNIGHT—A new picture of Sir Geo. McLaren Brown, General European manager of the Canadian Pacific Railway, who has been honored as the result of his splendid services as unpaid assistant director of transport for the British Government during the war.

CANADIANS IN GERMANY Contracted a Mock Marriage

Two Canadian Divisions are to Remain Until Further Orders

Ottawa. — The militia department reaffirmed its denial of the story of General Dods, in Montreal, that all Canadian forces have been withdrawn from Germany. "The information we have is wholly in the contrary," stated the chief of the general staff. He had been inclined to think that Gen. Dods had been misunderstood or misquoted.

The known plans in regard to the Canadian divisions are that the third division is being withdrawn from France and Belgium, but will, on account of traffic conditions in France, march to the sea by easy stages instead of being moved by train. From there it will be transported to England. The movement to Canada would therefore start about March 1. As far as known at present, the other two Canadian divisions are to remain as a part of the army of occupation in Germany until further orders.

Express Disappointment

Paris. — W. F. Massey, premier of New Zealand, and Sir J. G. Ward, minister of finance of New Zealand, have arrived in Paris and expressed disappointment at the decision of the supreme council to give the country only one delegate at the peace congress. The New Zealand ministers represent two different parties in New Zealand and both wish to be present at the conference. They said they would endeavor to have the decision changed so that both could attend the peace sessions.

W. N. U. 1248

Coal Miners Strike

Whole Yorkshire Coal Field Probably Will Be Idle

London. — Industrial unrest throughout the United Kingdom is on the increase. In addition to the threatened railway strike the whole Yorkshire coal field probably will be idle, throwing 150,000 men out of employment, while preparations are being made in Scotland for a general strike for a 40-hour week.

The cause of the trouble in Yorkshire is somewhat similar to that which is occurring in other parts of the country. The operators there have locked out some 40,000 men who insisted on taking twenty minutes of the employers' time for meals.

In reply to the lockout the Yorkshire miners' association has declared a strike. The dispute in London between the engineers and their employers has improved somewhat. Some of the employers have granted the demands of the engineering trade, but the electrical workers are now threatening to strike.

May Export Low Grade Flour

Ottawa. — The Canada food board has notified all millers in Canada that special permits will now be granted for those applying allowing them separation of flour into patents, clears, low grades and other flour extractions, provided such flour is only sold outside of Canada, to West Indies, Central and South America. Permits for the export of flour to those countries will be freely granted for straight run flour or any of the separations above cited. Applications for export to Newfoundland, in order to meet the requirements of the Newfoundland food board will be granted for standard flour only.

Portuguese Are Concerned Over African Colonies

Interested in Dominions

Paris. — The announcement of the aspirations of the British Dominions is being discussed with the keenest interest in official circles in Paris. The question is being frequently asked whether this present important step is to be followed later by insistence on the part of the Dominions of a right as nations to have a full share in dictating the foreign policy of the empire so far as it affects the Dominions.

"The British empire is in one sense a national entity and in another a league of nations in itself," was the way one high percentage summarized the situation.

Do Not Share in War Gratitudes

Next of Kin of Deceased Soldiers Provided for Under Pension Regulations

Ottawa. — There is absolutely no truth in the statement appearing in certain newspapers that the war service gratuity payable to men of the C.E.F. on retirement or discharge will also be paid to war widows, dependents and next of kin of soldiers killed in action or who died of wounds.

An official denial of this statement was issued by the militia department, and at the same time it was pointed out that the order in council makes no provision of this nature. The next of kin of deceased soldiers are provided for under the pension regulations.

The order in council does, however, make provisions for payment of the gratuity to the dependents of a soldier who dies subsequent to his discharge or retirement, and before he or his dependents have received any part or the whole of the gratuity. It states that if there survive dependents of the gratuity equal to separation allowance, the portion of the gratuity unpaid at the time of his death should be payable to such dependents. In the case of a soldier who has no dependents entitled to separation allowance, and who dies subsequent to discharge before receiving any or all of the gratuity, the portion of the gratuity unpaid at the time of his death shall not become payable.

PROUD OF ACHIEVEMENT

Greatest Change in Habits of People Ever Recorded

London. — "I am constantly receiving reports from British Columbia of the splendid results of prohibition," writes Bishop Perrin, formerly Bishop of British Columbia.

A great deal is appearing here just now also concerning prohibition in the United States. The Times, however, editorially remarks:

"It seems hardly to be understood here that prohibition in America has not yet actually taken place. Meanwhile, in this country, where we have followed a more moderate policy, the Times continues, 'there has been wrought the greatest change in the habits of the people ever recorded and the greatest reduction in drunkenness ever accomplished in any country. This is the one belligerent country that can show such records. Others have been held up to our admiration as patterns to follow,' but when enquiry is made as to results, there are none worth showing. When any of our neighbors can show a positive record that will compare with ours, it will be time enough to admire their achievements."

Sinn Feiners Desired to Attract General Attention

Dublin. — Comments of the Irish papers on the parliament are to the effect that it was an empty beating of the air and that its special purpose was to attract the attention of the world, particularly of the peace conference, to the Sinn Feiners' cause. In the opinion of the papers, most Dublin people believe the Sinn Feiners expected and desired the congress to be suppressed by the police or the military.

The gist of the newspaper comment is that if Count Plunkett presents the Sinn Feiners' declaration on

Paris. — Portuguese circles in this city are greatly concerned over the situation in their country. They fear especially that their possessions in Africa, forming the third largest colonial empire on that continent, may come into question and that some European state may point out that Portugal, being in a state of anarchy, is unfit to rule other peoples.

The Portuguese hope that the delegates attending the peace congress will realize the sacrifices sustained by Portugal, which they say were very great compared with the size of the country and its wealth.

They say that Portugal asks "only to keep what she already possesses." The official journal of the Lisbon government has promulgated a decree inflicting heavy fines upon the districts of Oporto, Vizeau and Braga where the monarchists have been in control. The fines vary from \$50,000 to \$100,000 for every day the districts remain in a state of rebellion.

Bismarck Had Plans To Destroy France

Document Found Recently Among Papers of French Literary Man

Paris. — Prince Bismarck contemplated a "second war" by Germany against the French, which would result in the virtual destruction of France, according to a document published in the Petit Parisien. The document purports to be a note made by the ex-counsellor of the then King of Hanover, summing up a conversation with Bismarck, and is stated to have been found recently among the papers of a French literary man.

"I am positive that if I live long enough I am destined to destroy France," Bismarck is quoted as saying, "for in another war I will take from her colonies and her fleet, not to mention billions, and will dismember her a second time. For this purpose I am going to prepare the German people to become more powerful."

Crisis in Argentina

Radical Party Will No Longer Be Responsible for Acts of President

Buenos Ayres. — La Provincia says that the radical party is re-organizing and is preparing to issue a declaration that it will no longer be responsible for the acts of Dr. Hipolito Irigoyen, the president of the republic.

Dr. Irigoyen was elected president of Argentina in June, 1916, as the candidate of the radical party, being the first of his party to be elected president. He took office in October, 1916, for a term of six years. Since assuming the presidency, Dr. Irigoyen has had to reform his cabinet several times. His attitude during the war caused much political discussion in Argentina.

Italians Hold Conference

Discuss Italy's Aspirations From a Strategic Point of View

Paris. — The Italian delegation to the peace conference held a conference with General Diaz, the Italian commander in chief, who arrived in Paris to discuss Italy's aspirations from a military and strategic point of view, with special attention to possession of what the Italians call "the keys of the door on land and seas." To realize this object the Italian delegates, it is said, consider it indispensable that Italy possess the Brenner Pass and also the Dalmatian coast, and Sars and Sebenico. Without this they say it is impossible for Italy to control the Adriatic as otherwise the coast line of central Italy would be at the mercy of any nation possessing Dalmatia.

Sinn Feiners Desired to Attract General Attention

Dublin. — Comments of the Irish papers on the parliament are to the effect that it was an empty beating of the air and that its special purpose was to attract the attention of the world, particularly of the peace conference, to the Sinn Feiners' cause. In the opinion of the papers, most Dublin people believe the Sinn Feiners expected and desired the congress to be suppressed by the police or the military.

The gist of the newspaper comment is that if Count Plunkett presents the Sinn Feiners' declaration on

Will the ground hog see his shadow on Feb. 2nd?

Nominations for the village council on Feb. 5th.

Mrs. Oxley is visiting her sister Mrs. Black.

Mrs. Finlay McKenzie is visiting her mother, Mrs. Yates, for week or two.

Mrs. Milligan, senr. who has been ill for a week or two with a poisoned hand, is now almost well.

Regular meeting of Women's Institute will be held at the home of Mrs. Black, on Wednesday, Feb. 5th, at 3 p.m.

Mrs. Foster entertained a small party last Sunday, which included Mrs. Collins and her two little sons of Cereal, and Mr. and Mrs. E. Proctor and their little daughter Dorothy.

W. J. Farr, the Chevrolet car manager, was in town this week, looking up a suitable agent. We do not know whether he succeeded or not.

Mrs. Lindsay and little son have gone to Calgary, en route to Vancouver, where they will spend the remainder of the winter with her sister, Mrs. McMillan who has a house there.

The many friends of Mr. Chas. Aisworth, who has been confined to his home for several weeks, will be pleased to learn that he has been able to be out for a few hours.

Misses Florence and Ruth Rogers and Miss Annie Peyton, three Chinook pupils, leave this week for the Calgary Normal College, where they will take the teachers' Normal training. It speaks well for the Chinook consolidated school.

The Young Peoples' Society in connection with the Chinook church was re-organized last Thursday evening, when the following officers were elected:

Rev. G. H. Elliott, hon. pres.
C. W. Rideout, president
G. W. Foster, vice president
Miss Mary E. Rogers, sec.
Miss Good, treasurer

On Friday evening last, Jan. 24 a quiet wedding took place at the Chinook parsonage, the Rev. G. H. Elliott officiating, when Mr. Frank Boyer was united in marriage to Miss Basha Giberson of Bristol, New Brunswick. We join in wishing the happy young couple every happiness and prosperity in their future life.

As will be noticed by an advt on page 4, Messrs Besse & Huggins have taken over from P. R. Dobson the agency for the I.H.C. and implement business. The new proprietors being experienced implement men, we bespeak for them a successful business. They have rented the Hewitt warehouse, with offices one door from the corner on 1st Ave East.

The Empress Coronation and Swift Current branch of the C.P.R., which runs through Chinook, has been revived again during the present month. Last week two C.P.R. experts were in town testing the water and looking over possible locations for water supply. And the contractor, who has the contract for building the bridge across the Red Deer for this branch, was also in town and looking over the survey, which, he said, would be followed by the company.

Thrift Stamps saves "quarters"

Deputy Minister Craig and J. A. McCall, M.P.P. are to be the speakers at the Chinook Agricultural Institute meeting tomorrow (Friday) evening.

According to Major Hardisty, an old-timer in the west, a winter similar to this occurred in 1889. Late in February a very cold spell followed the warm weather freezing up rivers, etc.

Save by the W.S.S. plan.

Strayed

Two Pigs, 150 lbs each, from 17-20-7 \$10.00 Reward. JOS. DEMAN Chinook, Alta.

Lost

On Monday, Jan 14th, a nearly white Female Coyote Hound, had collar on J. R. MASSEY Chinook P.O.

Will Trade

MONEY TO LOAN

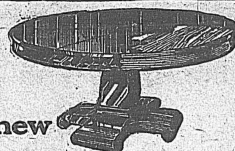

Oslar, Hammond and Nanton, general agents for North of Scotland and other Mortgage Companies have \$200,000 invested in farm loans in the West, the returns from which they re-invest in the same way. They have lots of money now. Their inspector, Mr. Stickney, who was in the district a few days ago, says "They have barrels of money, and that no good loan will be refused." Let them renew the loan you have on your homestead, and give you more on your pre-emption, give you money to prove it up if you wish. Or let them give you a new loan, as large, and probably larger, than you can get elsewhere. The district needs all the money we can get hold of in this way. Pay up your indebtedness to the bank, to the municipality, to the school, and to others. We can furnish the money. Loans for five years, repayable in three years, without extra charge. Interest at 8 per cent.—nothing but the interest to pay each year.
